EXPERIENCE

Cloud Solution Architect

Visionworks Inc   📅 2019 - Ongoing   📍 San Antonio

With 30+ years of history, Visionworks is a leading provider of eye care services in the U.S. with 750+ locations in 40 states and the District of Columbia.

- Engineered cloud solution design to consolidate, modernize, and simplify the operations strategy.
- Partnered with Rackspace to develop a plan that provides agility for the future as well as efficiency through eliminating data centers..
- Invented a DevOps strategy to reduce human errors during code deployment.
- Supported engineering teams to develop cloud services and ensure 99.9% system availability.
- Released an engineering infrastructure to facilitate quicker product and service roll-outs by enabling multiple cloud services to work collaboratively across Visionworks.
- Successfully implemented architecture cloud services to supply cloud platform capabilities like Compute, storage, integration and authentication.

Solution Architect (Applications)

Visionworks Inc   📅 2017 - 2018   📍 San Antonio

- Enhanced client profit growth by providing tailored premise solutions, cloud-based solutions, or hybrid environments in order to optimize their enterprise domains.
- Created a business automation solution that utilized the Twilio AI communication platform to automate notifications (SMS, voicemail, and email) on client's order status.
- Architected solutions to streamline employee system access points and enhance the custom security extension for Power BI report server to enable employee sign authentication outside of Windows accounts.
- Improved workflow by developing an application to assist corporate associates in their sales efforts.
- Designed and released a prototype C# code to verify the functionality of Azure user identify services.
- Effectively verified the functionality of Azure user identity services by researching, developing, and releasing a prototype C# code.

Lead Developer

HVHC Inc   📅 2016   📍 San Antonio

- Built the enterprise automation pipeline by integrating a high-availability Chef server and applicable agents.
- Achieved a zero percent downtime rate for all application deployments.
- Drafted technical documentation to educate users and developers on configuring DEV/QA and production environments within the Windows server.
- Spearheaded the automation of e-commerce application deployments.
- Structured a design process to manage SaaS, PaaS application, networks, and resource performance (via Dynatrace SaaS).

MY LIFE PHILOSOPHY

I want to make things easier instead of harder.

ACHIEVEMENTS

🏅 **Record Project Delivery**
Architected and built a full featured Text Messaging product in just four Months.

⭐ **Team Leadership**
Led direct and global agile teams to achieve strategic initiatives.

🚀 **My Academic Progress**
Progressed from a failing high school record to an MS in Computer Science

EDUCATION

M.S. Computer Science

Texas A&M University   GPA **3.75** / 4.0

MY TIME

Ⓐ Create and Contribute to Confluence
Ⓑ White board Cloud solutions
Ⓒ Mentoring and Coaching Teams
Ⓓ Collaborating on Strategic Roadmaps
Ⓔ Researching Industry trends
Ⓕ Developing Proof of concepts
Ⓖ Fixing Cars
